

## VINYL SHEET

MJ-1050

PT SUMBER SETIA ABADI  
BUILDING INTERIOR SOLUTIONS

## Majesta Wood Grain

### Texture

Highly realistic pattern embossing. Suitable to any room that requires easy cleaning and beautiful interior.

You will find it very difficult to distinguish Majesta with actual wooden flooring.

**Even up close.**

Allows you to express difficult tiling that would be wasteful when made with actual wooden plank.

**Majesta Stone  
Grain**

## Printing Technology

All Majesta series are made with cutting edge Japanese printing technology. Highest possible detail for absolute realism.

Not limited to stone and wood, We also have other pattern ideas such as woven fabric and terazzo.

# Viewgista Outdoor Flooring

Indonesia's one and only vinyl flooring that can be installed outdoor.

## Weather Resistant

Viewgista is resistant to weathering, UV rays & dimensionally stable under extreme temperature changes.

## Highly Functional Flooring

Viewgista fulfill all function needed for outdoor flooring. It is anti-slip, fire retardant, chemical & mold resistant.

## Water Proofing

Concrete surface with Viewgista installed are water impervious. Thus, minimizing the risk building foundation getting corroded.

**Viewgista Multi Softwood**

**Viewgista Multi Marble**

**Viewgista Multi Hardwood**

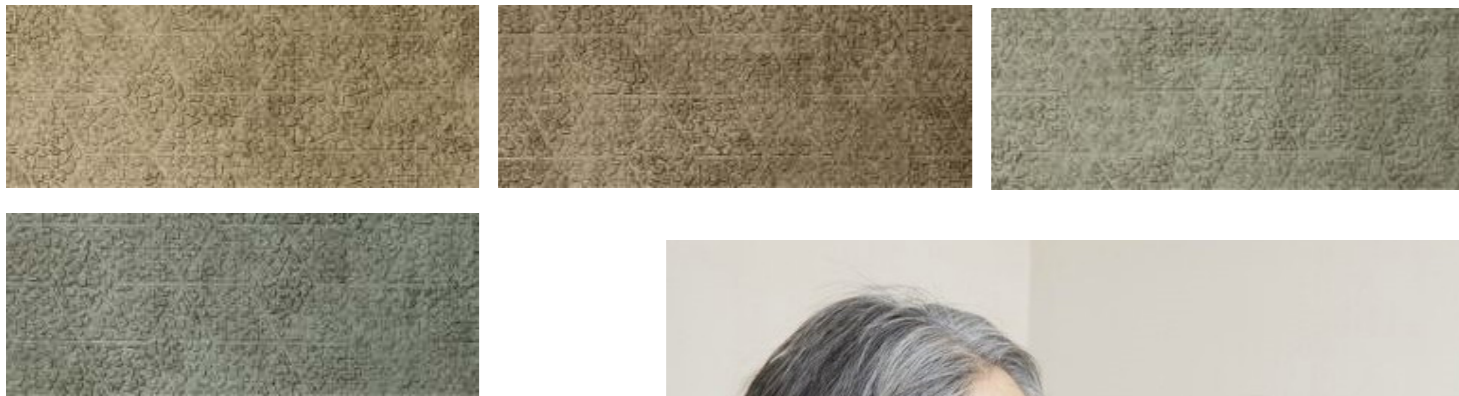

**Viewgista Multi Pile-Line**

## Viewgista Plus Careful Walk

Low hexagonal embossing pattern that allow smooth walking and antislip surface.

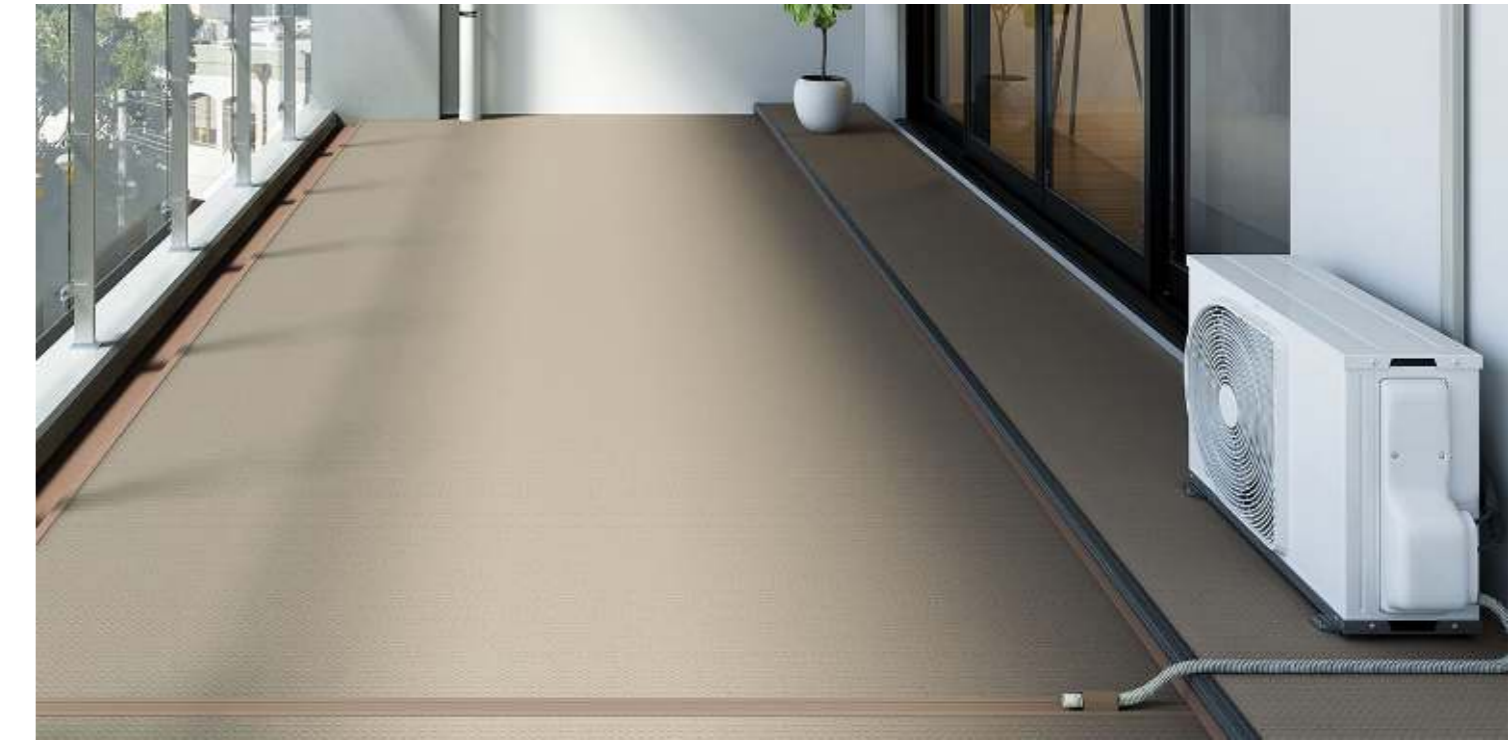

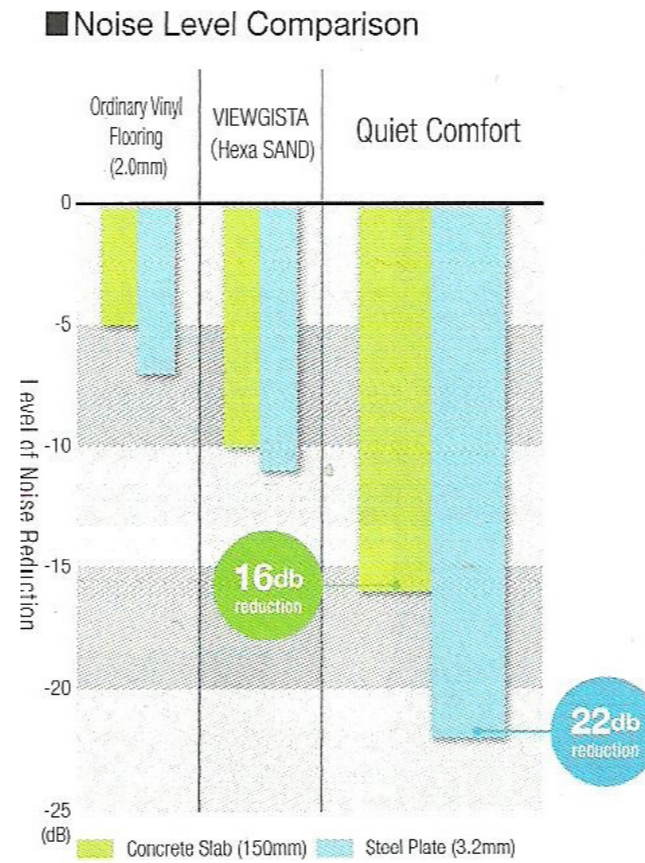

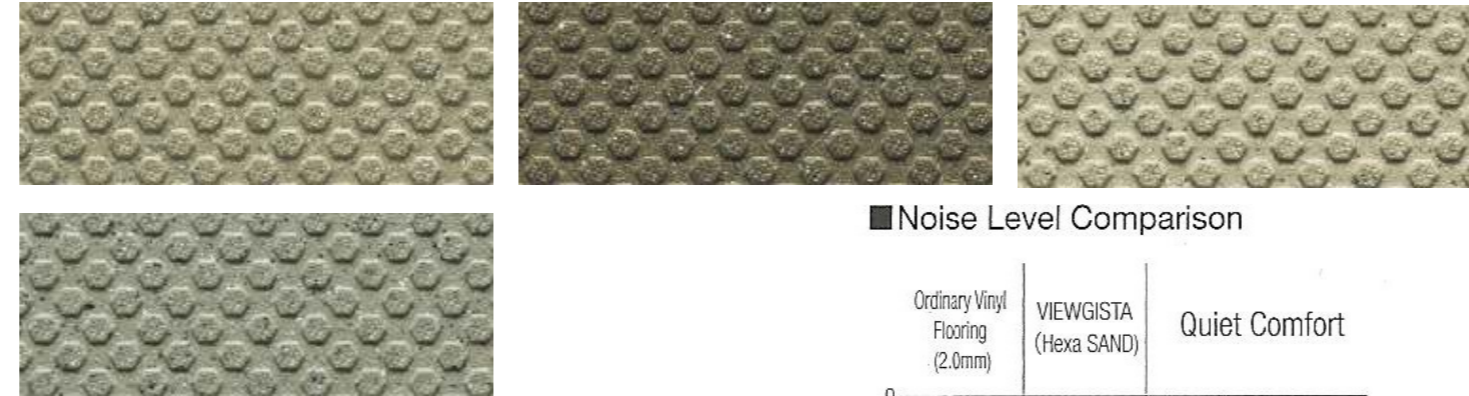

Suitable for people who are having difficulties lifting their legs.

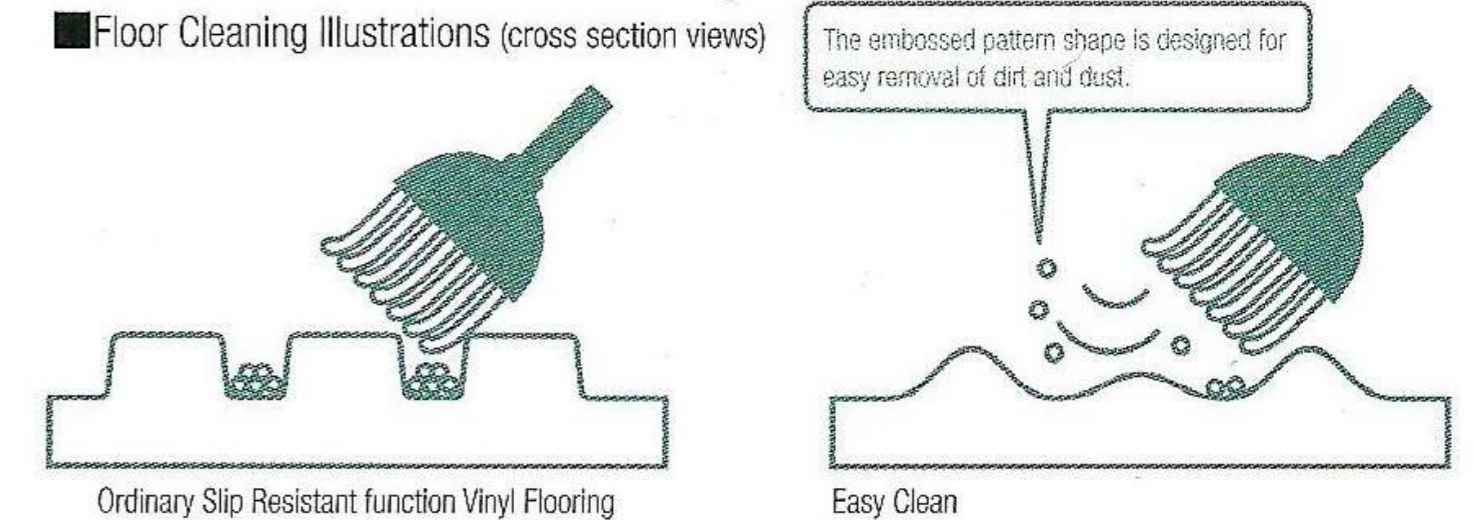

## Viewgista Plus Quiet Walk

Reduce noise level caused by footstep or heavy luggage by more than 15 dB.

## Viewgista Plus Easy Clean

Featuring unique embossing with easy clean function.

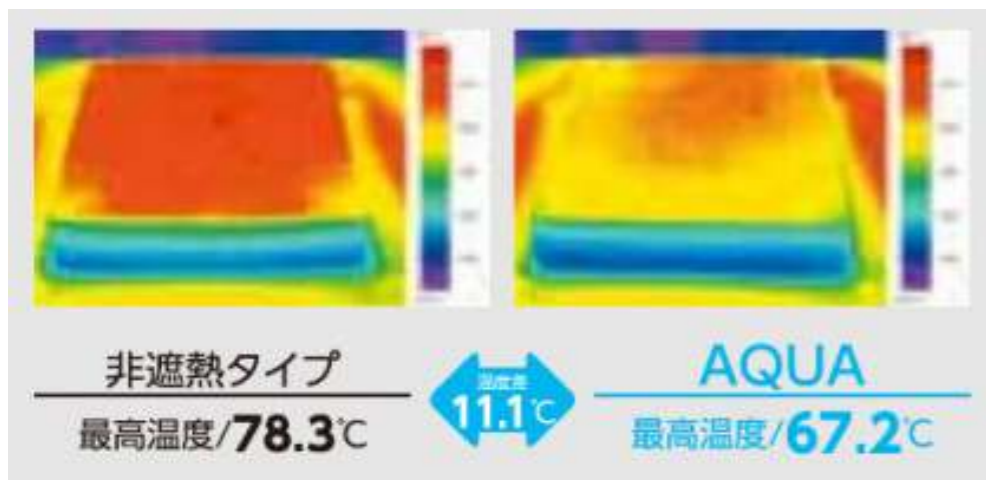

## Viewgista Aqua

Bright colored flooring to create clear distinction between wet and dry area of the pool.

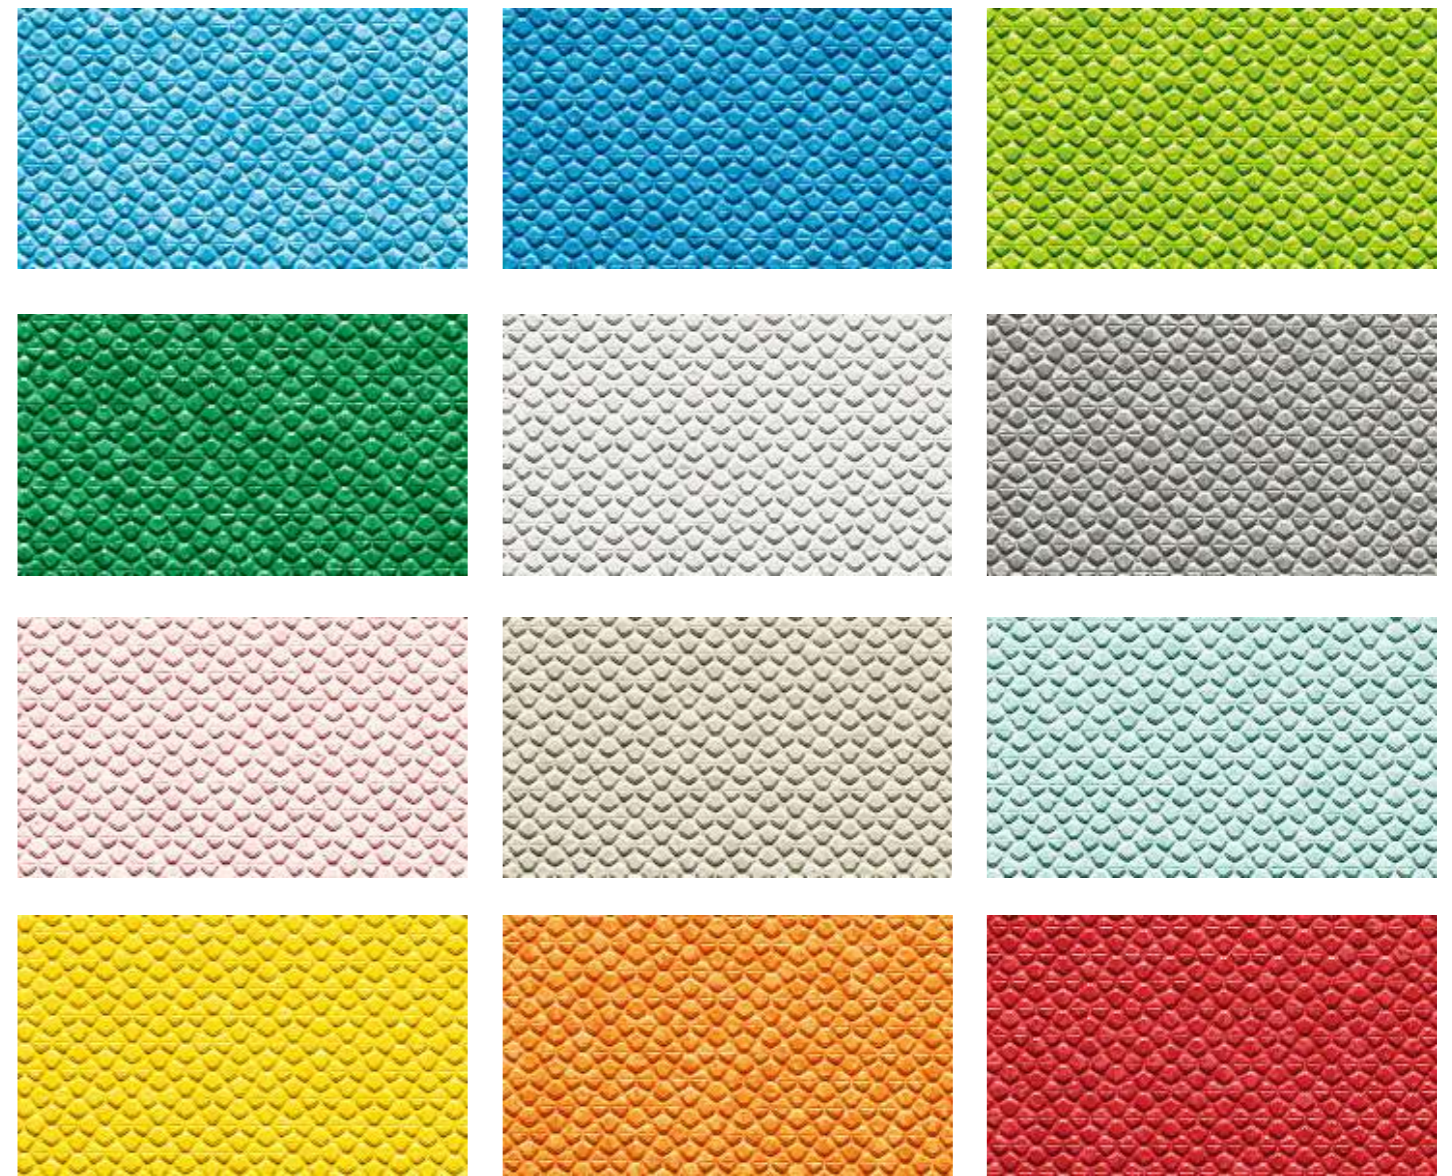

Embossing on Viewgista Aqua has more grip compared to other Viewgista. This is to provide feeling of security and maximum antislip performance.

Viewgista Aqua comes with Heatshield function, surface temperature will not change much even on a hot sunny day.

Ordinary Viewgista on the left and Viewgista Aqua on the right.

\*Infrared reflectance tested based on JIS K 5602 method.

## Viewgista Under L

Optional foam backing for Viewgista, reduces walking noise and severity of fall injuries.

**Foam Padded  
AC Floor**

**Anti-viral AC Floor (Wood grain)**

One of the first padded flooring introduced in 1977. Initial purpose of AC Floor is to reduce fall injuries in elderly care facilities & hospital.

AC floor is now accepted for use in kindergarten, dance studio, and gym. AC floor has 3 different thickness to accomodate different falling risk potential (2.8/3.5/6 mm).

On February 2021 antiviral function is added to provide better care to the elderly and children.

**Highly durable AC Floor (Marble)**

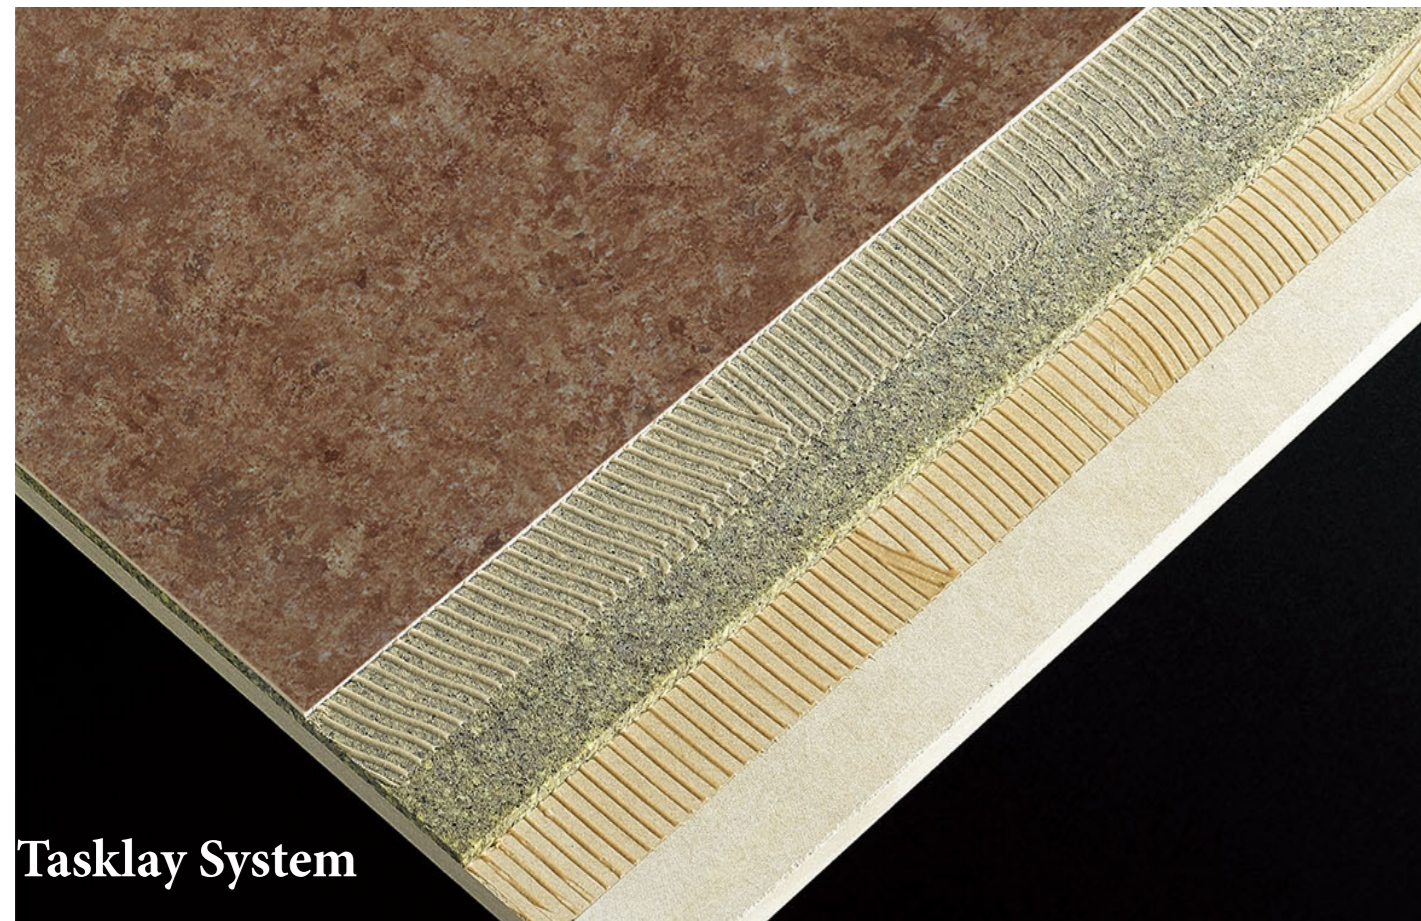

**Anti-viral AC Floor (Color)**

# Safety Feature (Tasklay System)

Vinyl sheet from Tajima can be installed with impact absorbing foam to reduce severity of fall injury.

Comes with different thickness and materials. Tasklay System with ordinary vinyl sheet can provide 20 – 35% impact reduction.

**This system reduces impact force more than normal carpeting!**

Tasklay system can be installed with Majesta for use in non-allergenic baby care facility.

## AC Floor + Tasklay System

Maximum impact reduction of more than 40% can be achieved with our Tasklay system and AC floor.

This combination usually done for high fall risk potential area such as **elderly bedroom, physiotherapy clinic, and ballet room.**

# Deodorant WelClean

Deodorant Welclean maintain cleanliness and hygiene better than any other flooring material. Here is how it works:

### Antibacterial

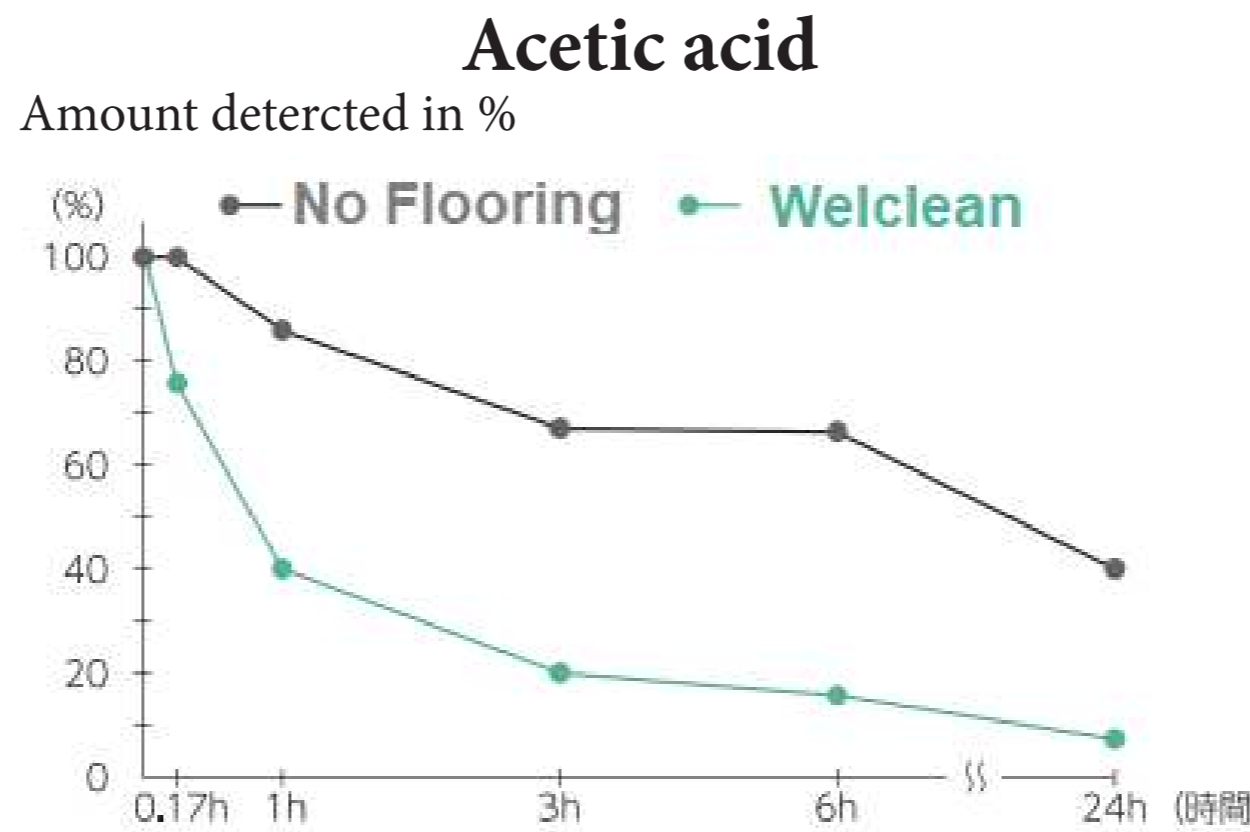

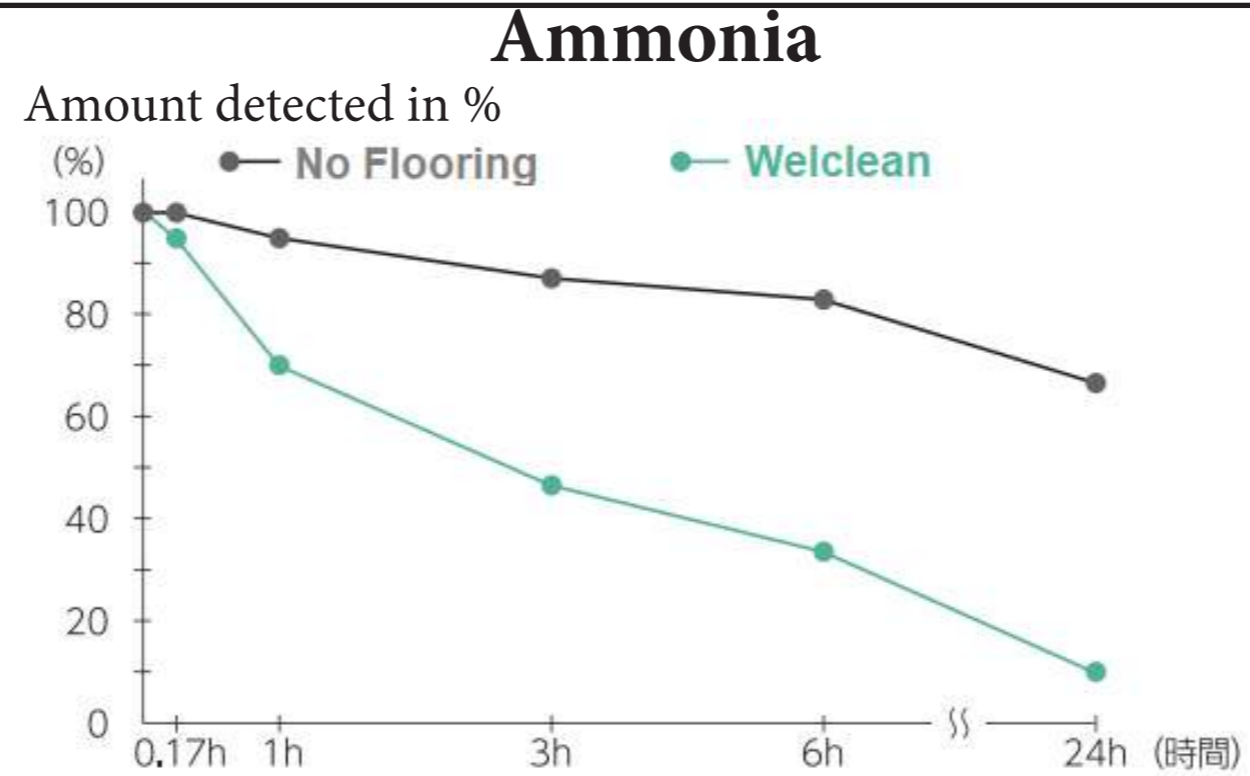

Deodorant welclean is antibacterial, eliminates germ to maintain hygiene environment on microscopic level.

### Odour Eliminating

Unique UV wear layer on Welclean captures and destroy odour causing molecule from air.

### Easy Cleaning

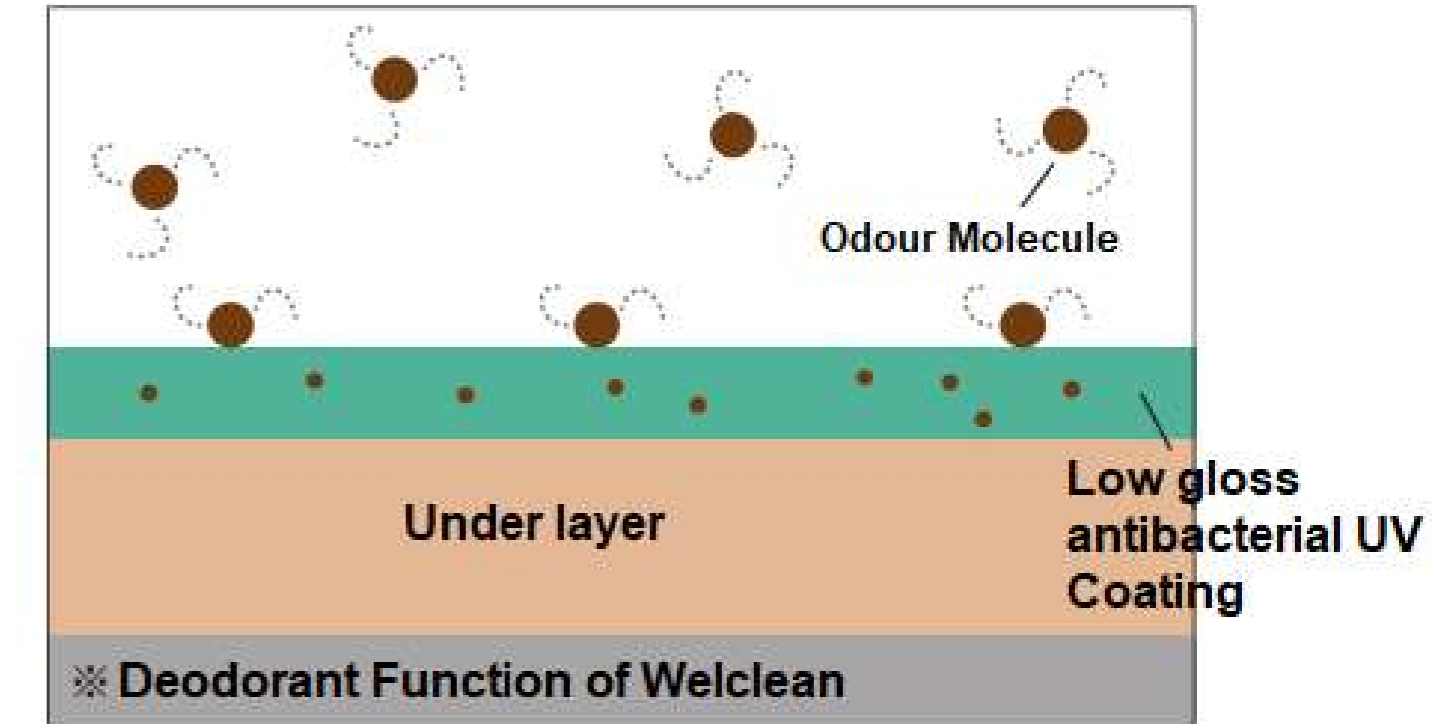

Wear layer of Welclean is stain resistant and very easy to clean.

Ammonia as a reagent simulating urine odour, and acetic acid as a reagent for body odour. In both test, clear deodorizing effect can be seen.

\*Test was conducted by: Japan Food Research Laboratories

## Mode of Action

## Urine Resistant

Aside from removing odour, wear layer on deodorant Welclean is resistant againsts urine stain
