# DESIGN ORIENTED CARPET TILE

# Design Oriented Carpet Tiles

## Overview

### Toughness

Most of our carpet tufts are made out of high molecular density Nylon 6.6 as opposed to conventional nylon/(6) or polypropylene. This makes our carpet tiles far more resilient against abrasion and indentation by furniture legs.

### Stain Resistance

Each fibre has been coated with fluorine based resin (similar to your non-stick pan). Stain resistance is absolute.

### Smart Construction

Cleverly constructed, most Tajima's carpet tiles can be easily installed together with its vinyl tiles & planks counterparts. There is no hassle in doing excessive construction work for additional floor levelling.

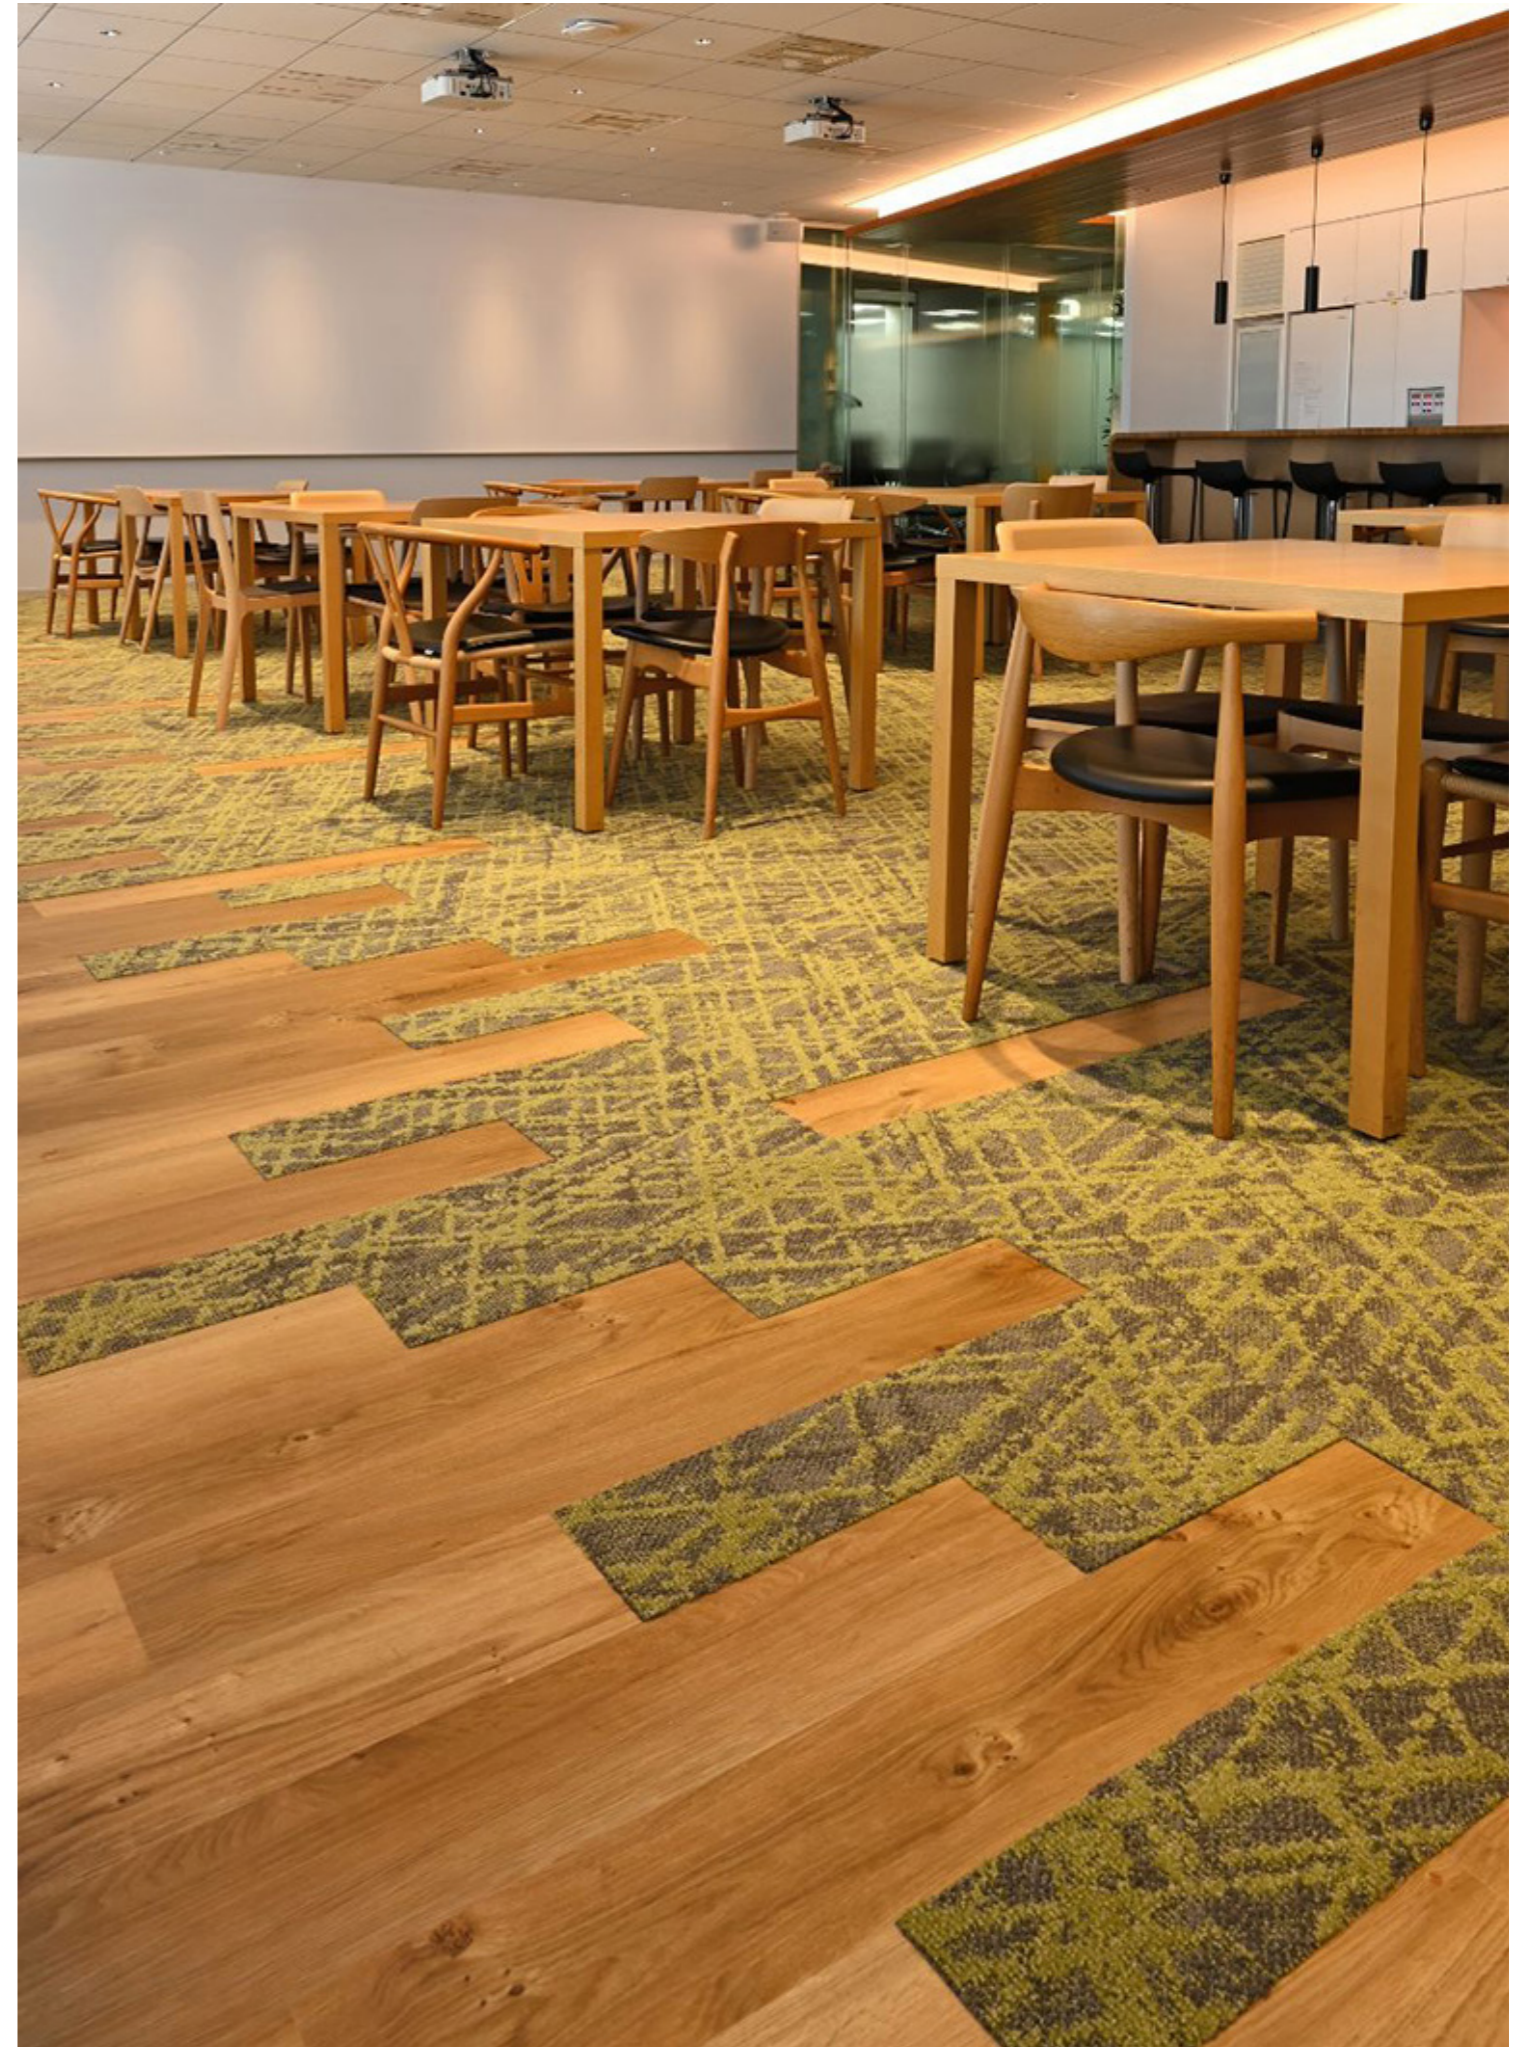

### Beauty and Functionality

All of our carpet tiles are JIS certified for its light fastness, friction fastness, flame resistance, and antistatic property.

### 3 Dimensional Tuft

Different length of tuft is used to add realism and texture to our design oriented carpet tiles.

\*Tapis nebula is not compatible with vinyl tiles/planks.

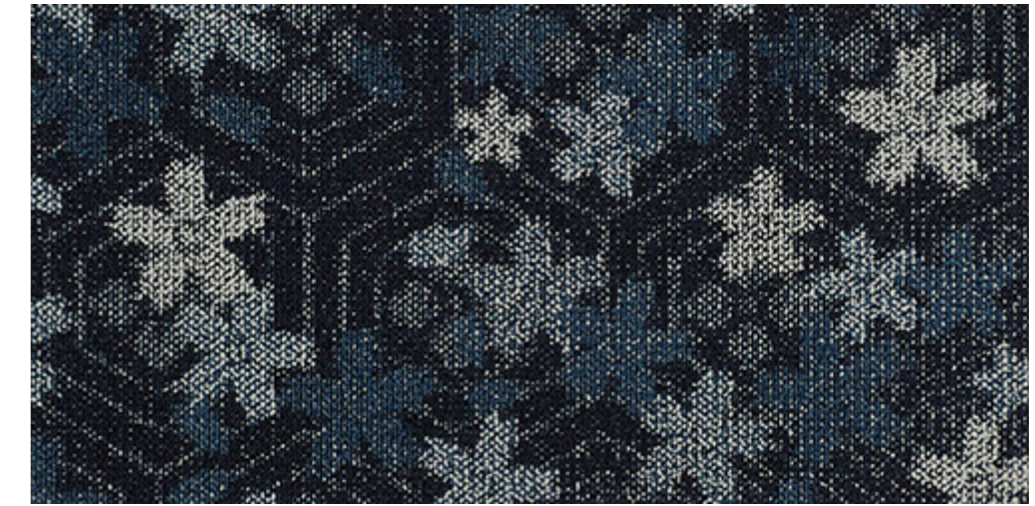

## CB5000

Japanese cherry blossom or sakura, has long been adored by people across the globe. It is regarded as a symbol of renewal, vitality, and beauty in Japan.

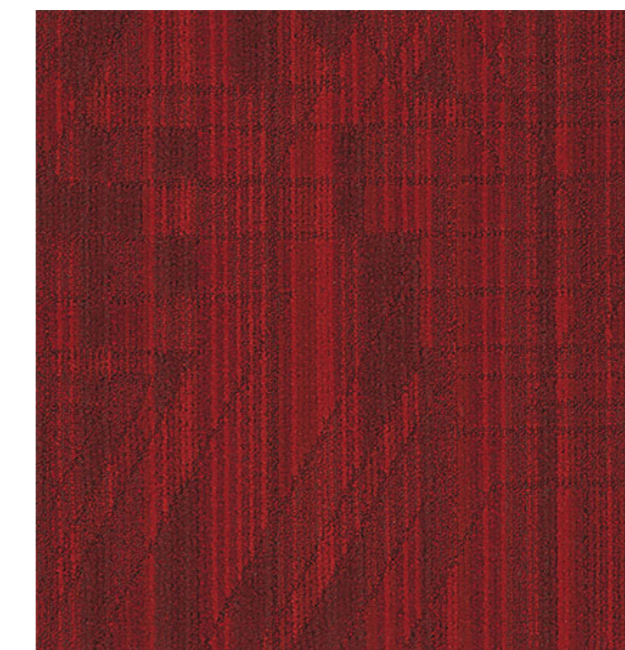

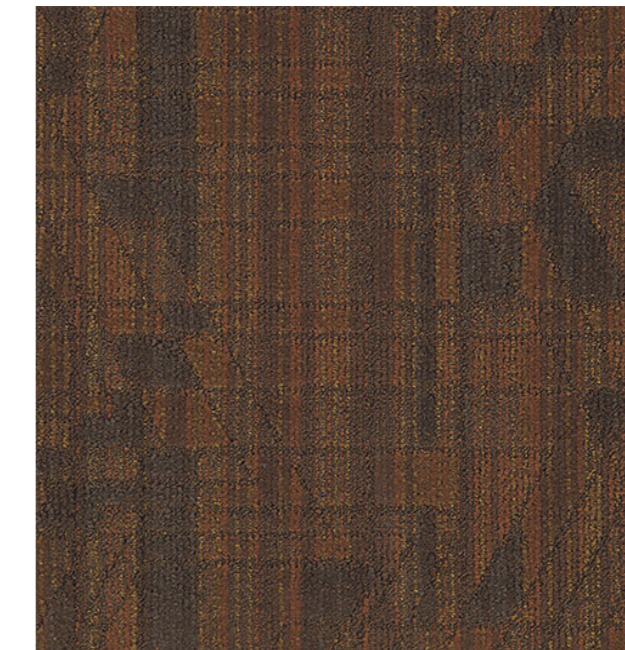

## Tapis Gracia

Satsuma Kiriko, a Japanese twist on European and Chinese art of glass blowing.

While European and Chinese perfected the art of shaping molten glass, Japanese craftsmen carefully cuts geometric pattern onto highly refractive leaded glass revealing diamond like sparkle.

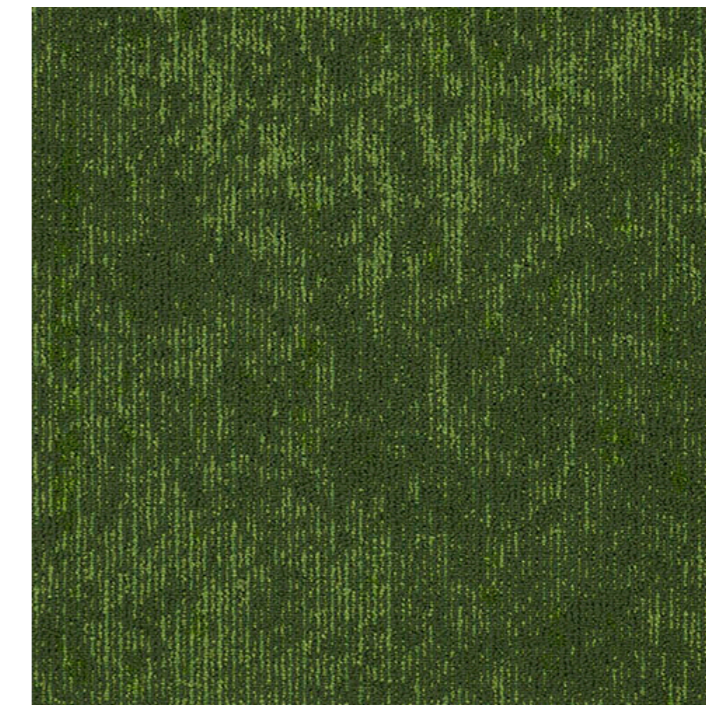

## TSF-7000

Imagine walking on a gigantic wool blanket. TSF-7000 is created to replicate touch experience and look of hand woven wool blanket.

With 3 dimensional tuft, we have created rhombic shaped padding like structure. Not only it adds to the realism, but also contribute to the overall softness.

## TSJ-7000

Have you ever wonder what does it feel to have an office covered with freshly mowed grass?

3 dimensional texturing & solution dyed techniques are used to mimic different length of freshly mowed grass.

Your room will not become monotone, even if you installed TSJ-7000 for a large area.

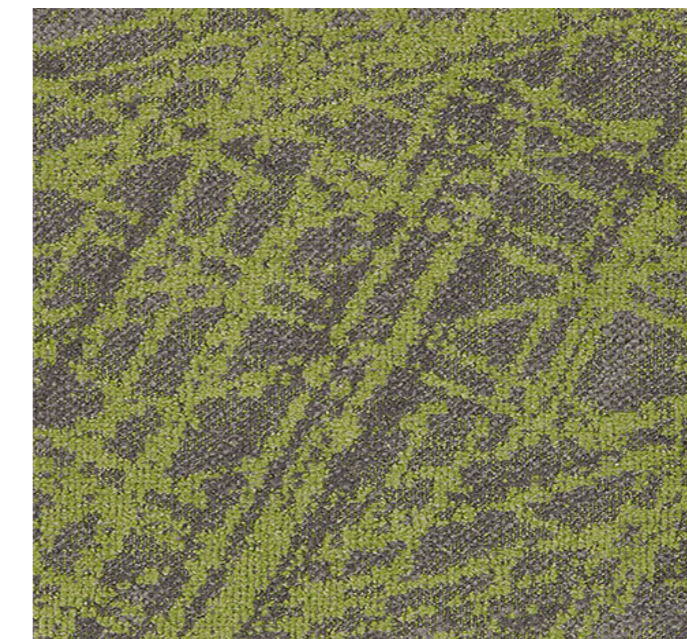

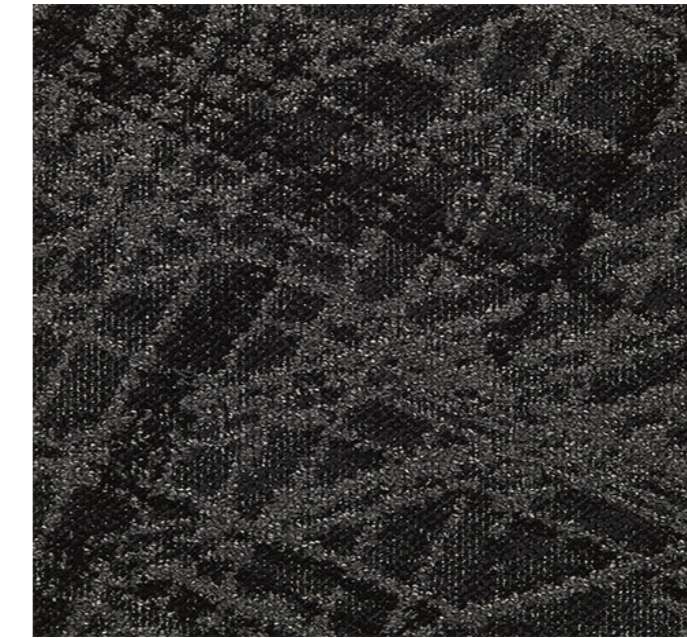

## Tapis Precious Stone

From the blood red carnelian to the ocean blue lapis lazuli, Tapis precious stone offers a stone inspired design in a variety of colour and lustre.

The upbeat and dynamic colours will surely bring a delightful atmosphere to your interior design.

## Tapis Delie

When Japanese paper making tradition meets contemporary design.

The pattern within Tapis Delie is inspired by irregularity of light diffusion when washi paper directly hit by mellow light.

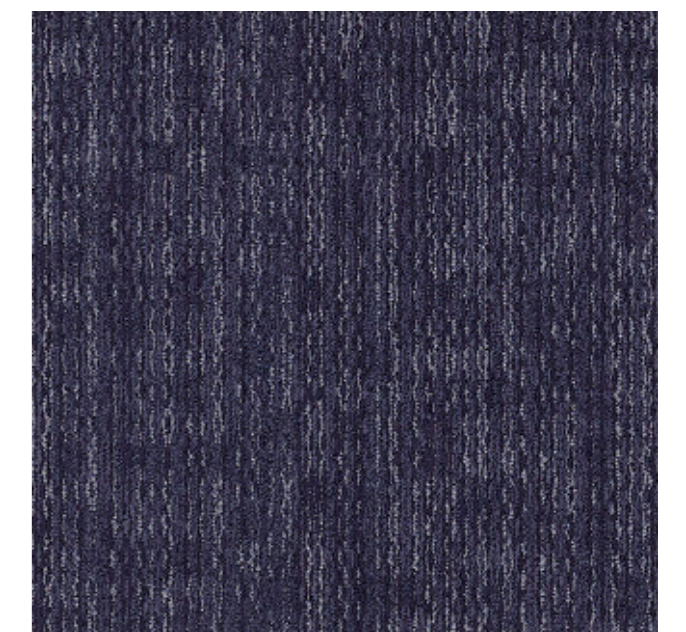

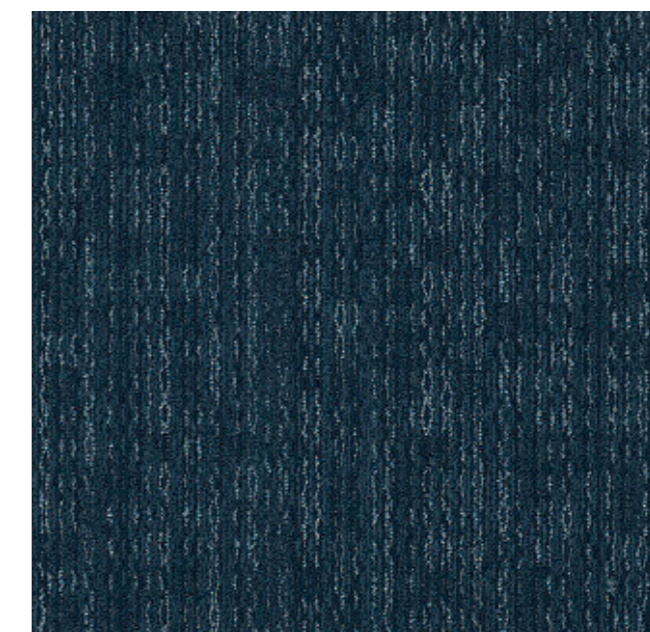

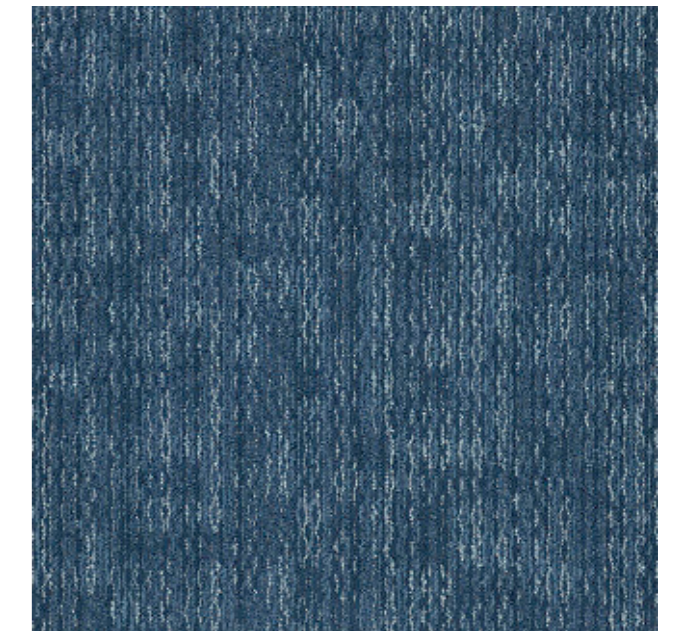

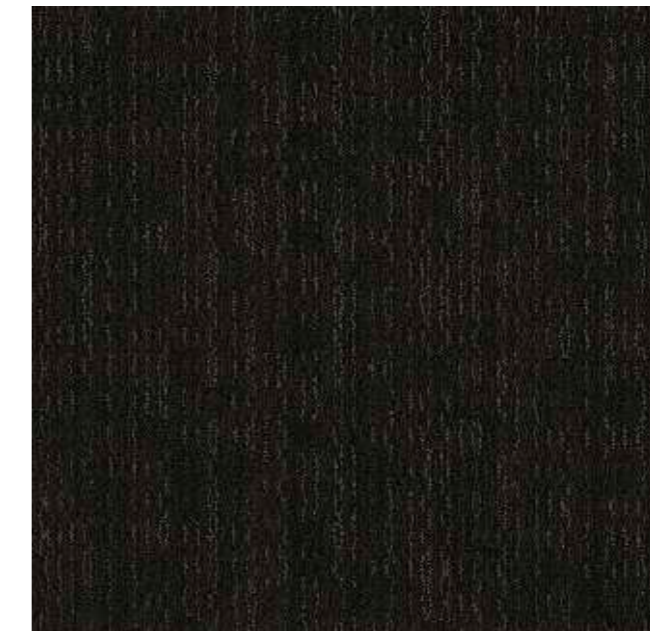

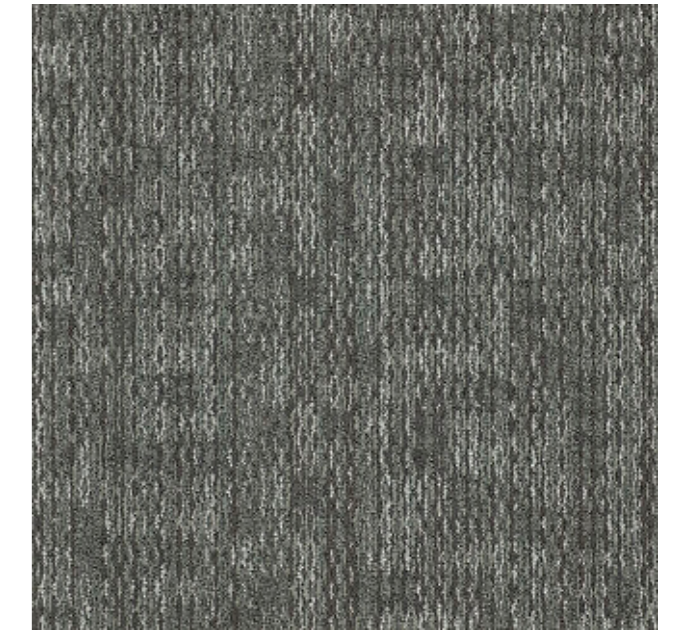

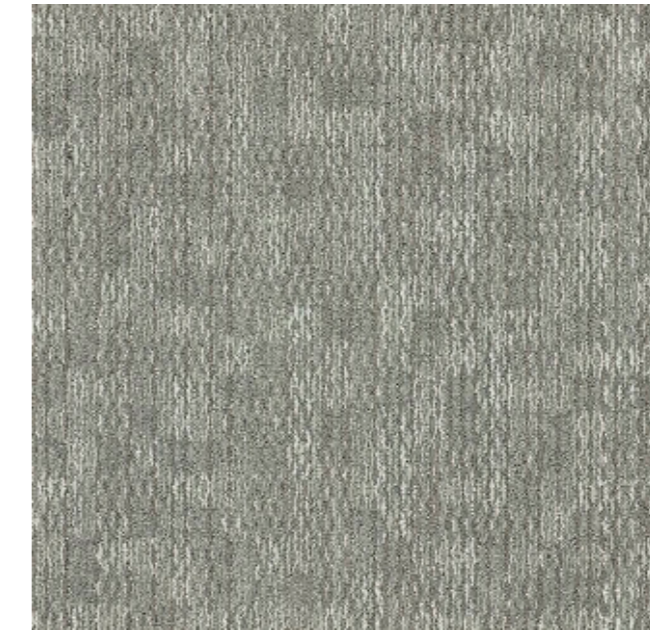

## TSA-7000

From pearly ocean mist to the blue colour of the midnight sea. TSA-7000 is a highly artistic carpet tile expressing the beauty of ocean.

Three-dimensional texture within this carpet will help you achieve an astonishing office interior design with minimum effort.

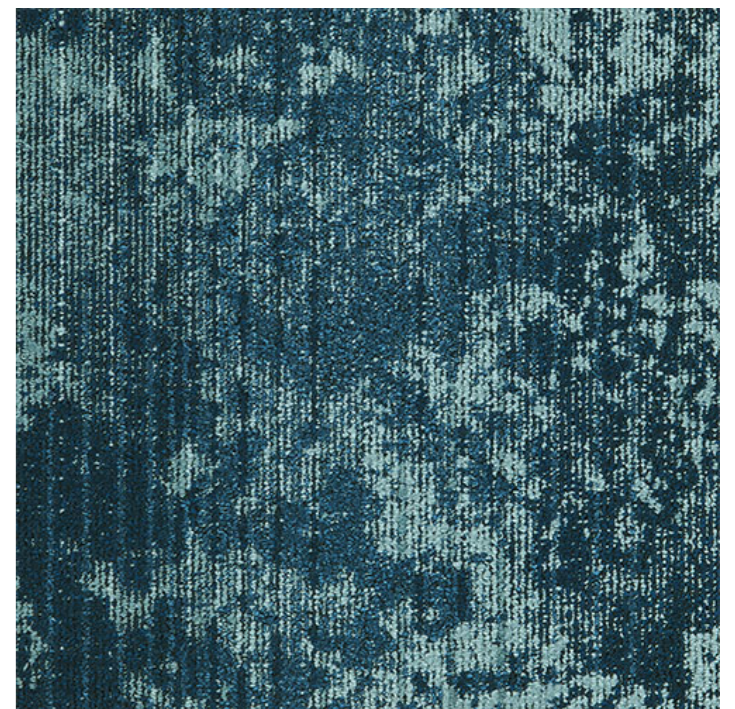

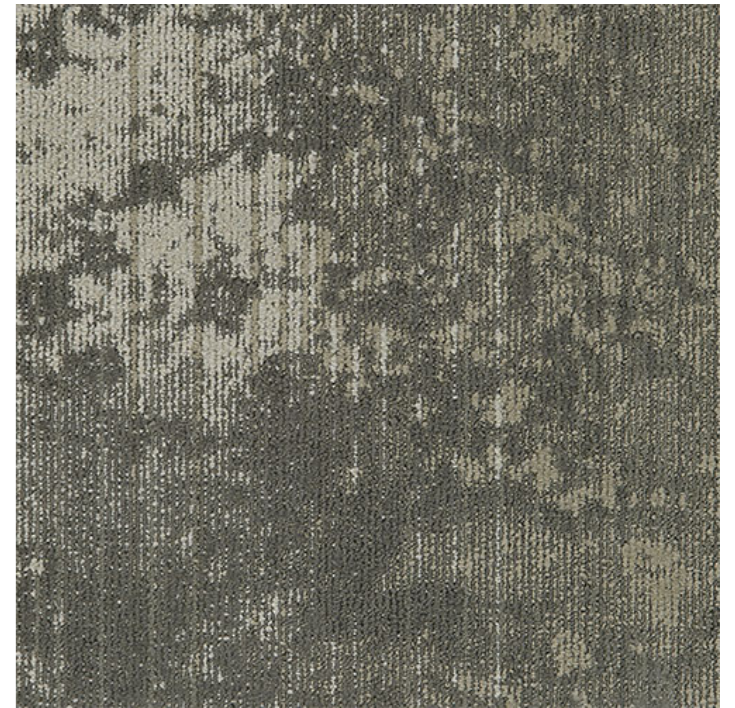

## Tapis Grungeni

Tapis Grungeni got its inspiration from freshly poured concrete. Raw unfinished look, suitable for any interior that requires industrial aesthetic.

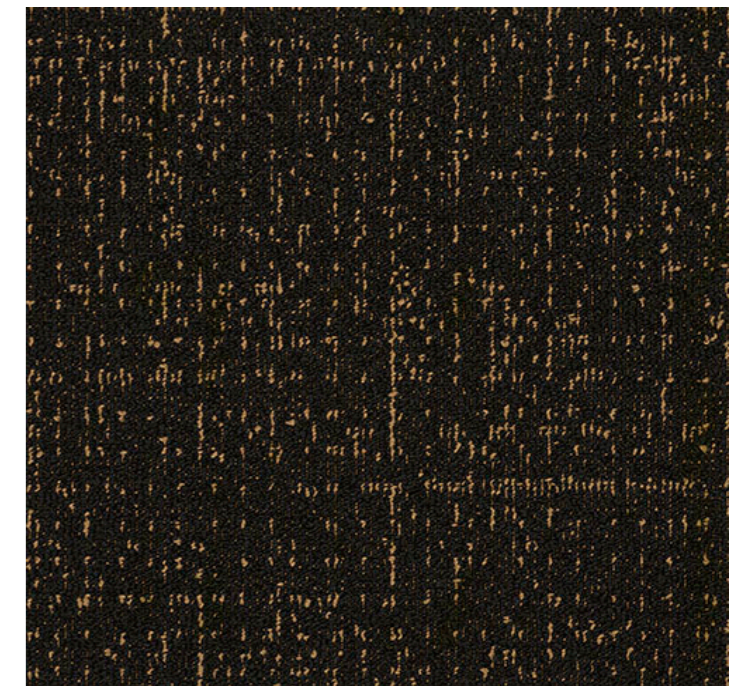

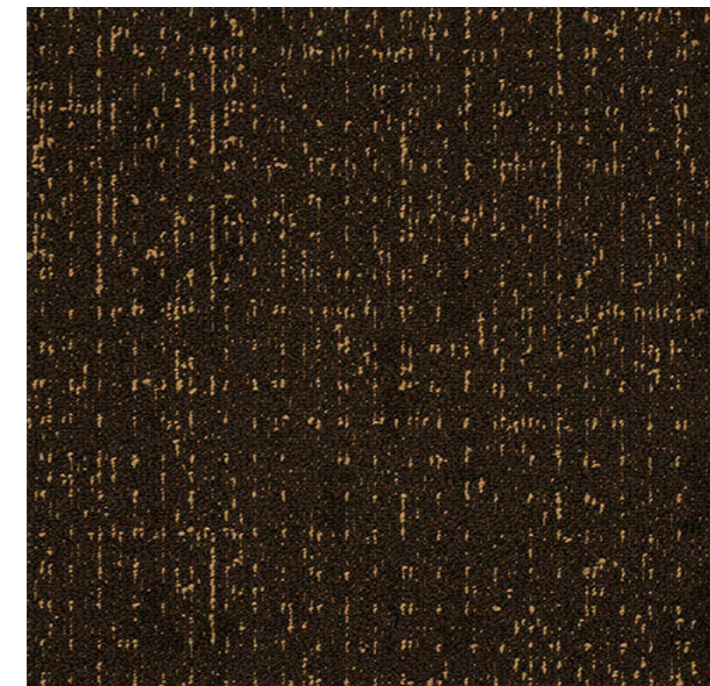

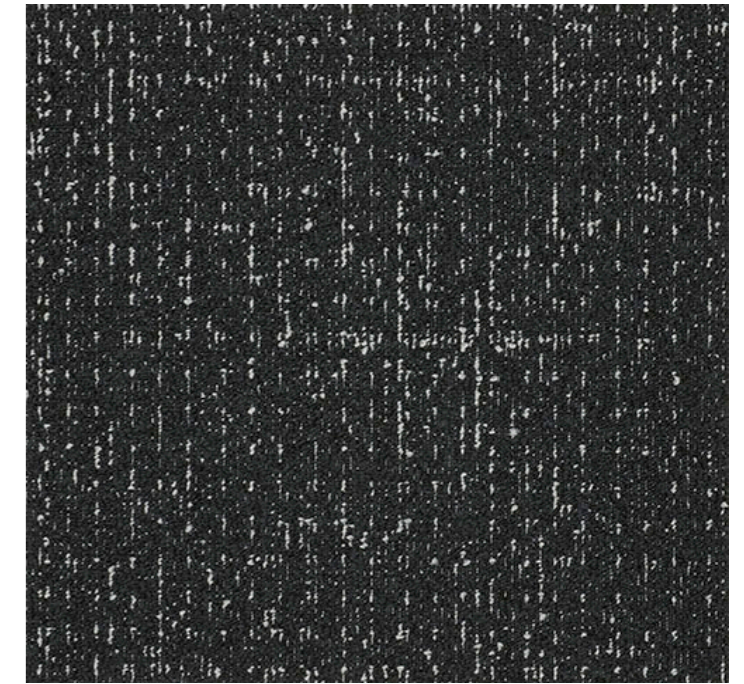

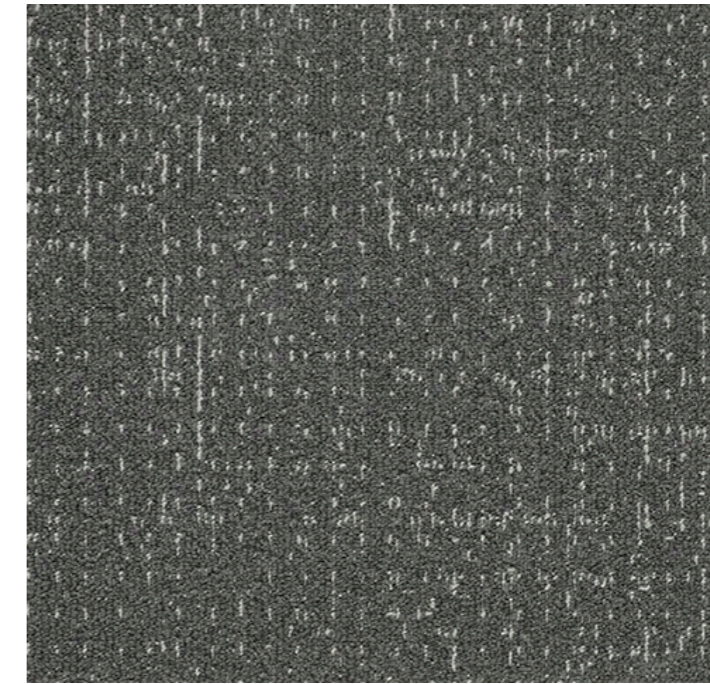

## TSE-7000

Simplistic modern design. TSE-7000 colour palette is inspired by different shade of colour brought by different level of coffee roast.

## Tapis Nebula

Celebrate space exploration & commemorate the wonder of the unknown.

As the name suggest, this carpet tile is inspired by the mother of all stars. Nebula, swirling cloud of cosmic dust held together by the force of gravity.

Once reaching critical density, Nebula will start a nuclear fusion reaction. This is the birth of a star.
