Celebrating 100 years of Tajima

As a Japanese company, the concept of Wabi sabi and rustic appeal are deeply rooted in our pursue of beauty.

Tajima in collaboration with Kaihara Corporation present you denim-based luxury vinyl tile, where the softness of indigo dyed cotton meets the durability of vinyl flooring.

Just like jeans, the colour of Denim Floor will evolve with the flow of time, reflecting fond memories and nostalgia.

Traditional dyeing technique allows partial penetration of indigo to the fiber matrix. Outer layer of each fiber will appear darker than the center.
